

LMT 2021-S1 Proposal Review and Time Allocation Process

LMT Community Meeting #3

10/30/2020

Principles guiding the process

Scientific Impact

- Optimize scientific impact while assuring each user community receives its share of observing time

Service to User Communities

- preserve share of observing time
- promote student success
- develop community experience

Collaboration and Cooperation

- Respecting our history and strengths, our processes should promote collaboration over going it alone.
- This collaborative intent includes the process of conflict resolution.

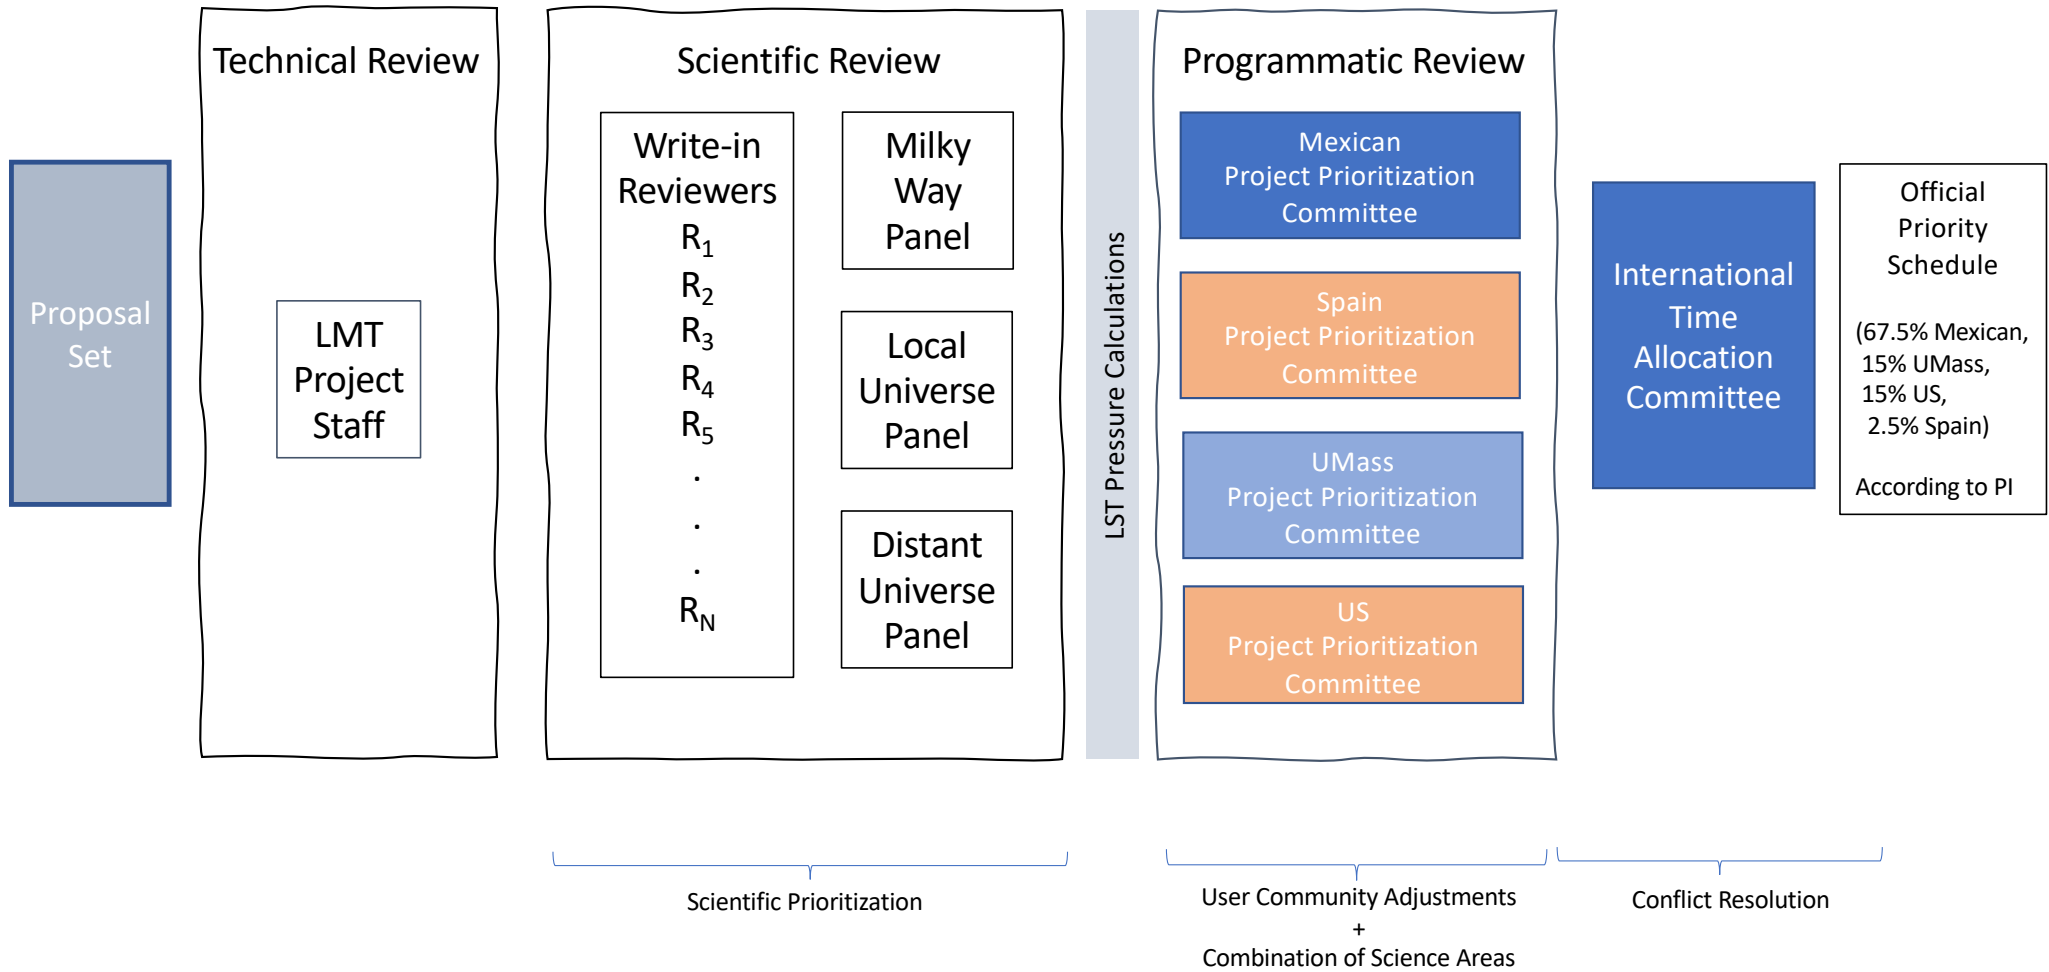

Transparency and Inclusion

- We should strive to be as transparent and inclusive as possible throughout this process.
- “No smoke-filled rooms.”
- Any deviations from the norm must be documented.

Commitment to Improvement

- We will review this process before the next proposal season and invite community input for changes/improvements.

LMT Proposal Flow
